## Sell & Parker x Sydney Children's Hospitals Foundation Kids Car Crush Tour

Fun and Education for School Students

**Sydney** - Sell & Parker leaders in the recycling scrap metal industry, are excited to announce the successful return of the Sell & Parker Kids Car Crush Tour. In partnership with the Sydney Children's Hospitals Foundation (SCHF), Sell & Parker hosted the tour providing 40 Sydney school students with a unique and educational recycling experience at their Blacktown yard.

The students witnessed firsthand the scale and impact of the recycling industry. The tour allowed the children to actively witness the operation of heavy machinery, including mobile shears and excavators used in the recycling process, with the highlight being the double vehicle crushing process which wowed the students. The students were provided personal protective equipment (PPE) and a gift bag to become better recyclers.

Sell & Parker take pride in educating and inspiring the next generation about ethical scrap metal recycling, donating \$1 to charity for every tonne of scrap recycled at their metal recycling yards.

“We are proud to have donated over \$6.2 million to support the Sydney Children's Hospitals Foundation, the Royal Flying Doctor Service, Westmead Institute for Medical Research and various other local community programs. Recycling with us, you're helping support the wider community.”, said Morgan Parker, Director at Sell & Parker.
